Operating & Maintenance Costs:

	<u>Amount</u>	<u>Staff</u>
Total Operating Impact:	0	0
One-Time Startup Costs:	0	
Additional Estimated Annual O&M:	0	0

Prior Funding History / Additional Information:

This is a new request for purchase of new parcels.

Three parcels are proposed for purchase.

1. Icicle Seafoods. Block 8, Ninilchik Townsite (Block 8/Lots 1-11, 15-19, 21, 22). The Ninilchik River runs through this block of parcels and the area has traditionally been used for recreational river access and sportfishing access. Plans for sale of the subdivision threatened to create conflicts between new owners and existing users of these parcels. Purchase would protect habitat and ensure continued public access to the Ninilchik River. Purchase price based upon approved appraised value is \$113,000.

2. Anchor River Valley Estates Subdivision. Anchor Point, AK (Block 2/Lots 7, 8, 10, 11, 13, 14). Plans for sale of these lots were of concern to the Alaska Department of Fish & Game because of the potential impact to riparian habitat and loss of public access to the Anchor River. Purchase price based upon approved appraised value is \$78,000.

3. USS 448, Valdez Duck Flats. This parcel is currently owned by the University of Alaska. The Exxon Valdez Oil Spill Trustee Council has successfully negotiated with the University for the purchase of this parcel. An offer has been authorized by the Trustee Council for the appraised market value of the parcel, \$100,000. Acquisition of this parcel will protect valuable wetlands, maintain the Valdez viewshed and protect habitat for outmigrating and spawning pink salmon. This acquisition is strongly supported by the City of Valdez.
